

# Cyber Security Operations in an Island State

TLP:CLEAR

## CERTVU Operations

By: Dr. Jeff G Liu  
OGCIO &  
CERTVU Team

# Outline

- Background
- The Problem
- The Strengths
- The Mandate
- The Incident Response Governance
- The Incident Response Structure
- Mechanism
- CERTVU Operations
- Setbacks
- Concluding Remarks

TLP:CLEAR

# Acknowledgement

# Background

- 2016 / 2017 - Cybersecurity Policy Mandate to establish a CERT
- Prior to CERTVU - Information Security Officer under OGCIIO
- Systems & Network Security tasks
- SOC discussion
- CERTVU - 19th June 2018
- GBN Infrastructure spread across Vanuatu:
  - 6 Provinces
  - Submarine Cable & Towers
  - ISPs
  - 5000 + Users
- Services to all

# The Problem

- Geographic Disadvantages
- Lack of Resources
- Financial Constraints
- Absence of Legislation
- Lack of Political Will or Buy-in
- Time
- Infrastructure
- Vulnerabilities
- Low Cyber-literacy

# The Problem

- Bulleted
- Lack of Resources
- Financial Constraints
- Absence of Legislation
- Lack of Political Will or Buy-in
- Time
- Infrastructure
- Vulnerabilities
- Low Cyber-literacy

# Strengths

- Bulleted list
- Entity: CERTVU
- National ICT Policy 2013
- National Cyber Security Policy 2013
- Cybercrime Act No.22 of 2021
- National Cyber Security Strategy 2030
- Government Internal Security Policy Handbook
- GBN Infrastructure
- Political Will or Buy-in

TLP:CLEAR

# The Mandate

## ○ Incident Response
